**OU Description**

Information Systems Solutions offers Software Development Services to the different business units of the organization. Support Functions are included in this OU (Training and Quality) and they represent: Quality Assurance and Human Resources Support Functions. The quality of services are ensured via establishment of a software development methodology, that is certified by ISO 9001, ISO 9100, ISO 27001, ISO 20000-1, ISO 14001, ISO 17020, UNE 166002 and other models and norms required for working for important customers.

**Relevant Sampling Factors**

Organizational Structure: Each application e has different organizational structure that determines the used processes in order to the integration with the processes of the customer. Evolutive maintenances (projects) are developed into applications

**Sampling Factor Values**

Shared Structure: The project uses a mixed organizational structure where part of the resources and structure is from the organization and the other from the customer’s one

Only ALTRAN’s structure: The project uses only organizational structure

**Subgroups**

S1 Organization’s Structure Projects

S2 Shared Structure Projects
